The Librarians:
-Dexter Estrada (Lead)
-Kyle Louderback
-Nicholas Semaan
-Kevin Ngo

Project: Quick Story

GitHub Repository:
https://github.com/contactatfp/theLibrarians.git

Job Assignments:
Kyle:
- Personal Task / Milestone accomplished
  - Fixed Registration Bug
  - Tweaked About Us Page
  - Removed Forgot Password Link
  - Testing
- Blockers
  - None
- Feedback/insights from peers/TA/instructor
  - None this week.
- Helps that you offered to other teams, or your teams
  - None give out this week.
- Suggestion for your partner team, TA, and instruction
  - None this week

Kevin:
- Personal Task / Milestone accomplished
  - Adding images to previews in Browse books
  - Test the website and took screenshots for the test doc
- Blockers
  - None
- Feedback/insights from peers/TA/instructor
  - None this week.
- Helps that you offered to other teams, or your teams
  - None give out this week.
- Suggestion for your partner team, TA, and instruction
  - For TA/instructor, if you get errors try looking at the FAQ/Instruction section of the expert doc instructions. You could have an outdated config file or missing new requirements.

Dexter:
- Personal Task / Milestone accomplished
  - Changed Schema to store image
  - Coded image upload and retrieval to Azure Storage

- Blockers
  - None
- Feedback/insights from peers/TA/instructor
  - None
- Helps that you offered to other teams, or your teams
  - UX/UI:
    - Quiz scores page look weird with a bar graph. Maybe a table or timeline would be better.
    - Fill in the blank is too strict with grading. Maybe allow the user to grade themselves

Nicolas:
- Personal Task / Milestone accomplished
  - Attempted to fix about page footer
  - Researched azure login issue
- Blockers
  - Couldn't fix footer on about page (doesn't affect functionality)
  - Couldn't find any useful information for login issues
- Feedback/insights from peers/TA/instructor
  - Footer for browse page does not sticks to the bottom
  - Footer for About page does not have full width
  - Forget password feature does not exist. If not exists, then it is fine to remove the button
- Helps that you offered to other teams, or your teams
  - UX/UI:
    - add to quiz feature that you need minimum 4 flashcards for it to work
    - add password requirements before first submission (not necessary)
    - reset password is a bit sketchy because anybody can reset anybody's password as long as they have their username and email
    - view quiz results (which ones right and wrong)

Milestones:
M2: Registration, Login/Logout, About, and Form features - March 5
M3: Book Generation feature - March 19
M4: Preview and Download features - March 30
M5: Share feature - April 10

Technology:
-Flask Framework
-SQLite
-Bootstrap/HTML
-CSS
-JavaScript
