The Librarians:
-Dexter Estrada
-Kyle Louderback
-Nicholas Semaan
-Kevin Ngo (Lead)

Project:
Quick Story

GitHub Repository:
https://github.com/contactatfp/theLibrarians.git

Job Assignments:
Kyle:

- Personal Task / Milestone accomplished
  - Switched from Azure hosted database to SQLite because we ran out of credits
- Blockers
  - None
- Feedback/insights from peers/TA/instructor
  - None this week.
- Helps that you offered to other teams, or your teams Provided feedback on testing for their site. Suggestion for your partner team, TA, and instruction
  - Fix the build issues because of database hosting problem.
  - Done

Kevin:

- Personal Task / Milestone accomplished
  - Help setting up Azure/checking that our product still works
  - Prettying up instructions
- Blockers
  - Well if you count it, our Azure credits running out and needing to set up another
- Helps that you offered to other teams, or your teams
  - Locally, could not connect DB with frontend
  - Some issues with the text on images that are hard to read
    - Could probably use shadows on the text to help readability
  - Seller page is inconsistent with the other pages
    - The tab isn't highlighted mint
    - Missing the HOME / SELLER that should also be at the top
- Suggestions from partner team/TA/Instructor
  - Need to check our building instructions for db (our hosting went down at the time. this should be fixed by now)

Dexter:

- Personal Task / Milestone accomplished
    - -Azure deployment for hosting and storage
    - -Adding image storage to website
- Blockers
    - -Azure account that was hosting website and database ran out of credits
- Feedback/insights from peers/TA/instructor
    - -Build failed due to error with database that was hosted on Azure.
- Helps that you offered to other teams, or your teams
    - -UI Errors:
    - -Black text over dark image
    - -Trusted partners on the bottom are shown twice

Nicolas:

- Personal Task / Milestone accomplished
    - -Testing online deployment to make sure no issues with new deployment
- Blockers
    - -None
- Helps that you offered to other teams, or your teams
    - -Some text is hard to read
    - -Doubles up for trusted partners
- Suggestions from partner team/TA/Instructor
    - -Issue with building due to database hosting problems
